## **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-18 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Netpulse Cycling, stepping, and surfing the Net [July 9/99]

Americans have found a new way to combine two of their obsessions by installing Internet terminals on exercise machines at fitness centers. San Francisco-based Internet company Netpulse Communications has installed terminals at 300 fitness centers across the United States and expects that number to double by the end of the year.

The Netpulse monitors, which can be installed for \$3,000 US, have touch screens and are mounted on exercise bikes and stair climbers. Users can surf the web, send email, listen to music, or watch TV while checking how many calories they have burned.
